

Anh Thoai Tran

Full Stack Developer

About Me

Hi there! I'm a passionate **Senior Fullstack Developer** with expertise in Java and React. Over 8 years, I've honed my skills to craft robust, scalable applications that meet and exceed client expectations. Let me give you a glimpse into my journey and what makes me tick as a developer.

I am a quick learner and a team worker that gets the job done.

Work Experience

Senior Fullstack Developer at AdvaHealth Solutions

2020 - Present

Project Description: Provide A fully-managed modern cloud-native PACS with Enterprise Imaging VNA capabilities, enables medical imaging specialists to produce diagnostic images of all sizes and types, providing a feature-rich and capital-light SaaS solution to streamline workflow, improve care, reduce costs, and scale flexibly.

Technical: Java 8 -11 -19 - 20 -21, Spring Boot 2, Spring Boot 3, Lombok, Unit Test (Mockito, Power Mock), AWS, Kubernetes, ReactJS, Vite

Project Team Size: 15

Senior Fullstack Developer at KMS Technology

September, 2017 - November, 2020

Project Description: I work on the Hot-Schedules - Restaurant management & hospitality project to provide the most loved, followed and used employee scheduling and labor management solution in the restaurant industry.

Technical: NodeJs, ReactJS, RxJS, Redux, AWS (DynamoDb, S3, SNS/SQS) and Microservices, Spring Boot, Lombok, Kafka, Elastic Search

Project Team Size: +150

Junior Software Developer at KMS Technology

June, 2016 - August, 2017

Project Description: I work on the E-commerce platform – MarketLive project to provide eCommerce platform, services and expertise designed specifically for mid to upper tier retailers.

Technical: Java8, Spring, Hibernate, Oracle DB, RabbitMQ, Web Service (Both SOAP and RESTful), SOLR

Project Team Size: 80

Junior Software Developer at KMS Technology

February, 2015 - May, 2016

Project Description: I work on the Healthcare Industry project to provide a powerful solution that automates all key operational processes by incorporating functionality such as Scheduling, Clinical Documentation, Compliance Management, Electronic Medical Records, Billing Functions, Payroll, Reporting and Exporting in one easy to use system

Technical: NET 3.5, ASP.NET/Web-form, MySQL

Project Team Size: +100

Education

AWS Certified Developer – Associate at AWS Certificate

March - 2024

I've obtained a new certification: AWS Certified Developer – Associate from Amazon Web Services (AWS).

Senior Fullstack Developer at AdvaHealth Solutions

2020 - Present

Over 7 years, I have learned and accumulated experience as fullstack developer role. I have ability to design the application both frontend(React) and backend(Java - SpringBoot) with microservices.

Senior Software Engineer at KMS Technology

2017 - 2020

As a senior developer, I'm more involved in features like Inventory, Transfer, Counting, Receipt transaction and improve the quality code and performance for the product. I also trained some members on the project and participated in interviews for the company.

Software Engineer at KMS Technology

2015 - 2017

As a junior developer, I took part in some main features related to check out/billing process and maintenance in e-commerce system. I also host some team building events for company.

Bachelor of Science In Information Technology from University of Science, Viet Nam National University Ho Chi Minh City

April, 2015

I studied and graduated from University of Science.
